People choose to work with us because they value a photographer whose work is uniquely distinctive and inspired, while still maintaining a respect for timeless elegance.

You've invested so much time already, so we make sure it's captured with the same level of thought, love and attention.

Photography is art, storytelling that will provide a lifetime of memories.

The most important part of photography is to make you feel something when you look through your wedding photographs. The 'wow' factor is the goal for every client. The enthusiasm with a strong desire to document real life through photography, is what drive us. This is why wedding photography has become our passion. The ability to provide people with amazing memories is a great gift, and we take pride in presenting you with a collection of images that encompass a truly amazing day in your life.

Based in the Bahamas, traveling throughout all of the Bahama Islands and the world to photograph your special day. Specializing in weddings, lifestyle and portrait photography. With a unique style, a fusion of photojournalism and traditional photography. Always focused on preserving the memories of your big day.

The Wedding Experience

A wedding is a once-in-a-lifetime event that should be photographed quietly, sympathetically, and without the photographer dictating what happens in front of them. As soon as a photographer engages the subject or directs or controls the event, the wedding becomes the photographer's idea of what the wedding should look like rather than what it actually is. We prefer to capture it in such a way as to produce images, which are honest and truthful, and can be enjoyed for generations to come. Each wedding is beautifully different, dynamic, and full of surprises. Authentic moments happen when you're not rushed for time. That being said, our wedding experience is effortless, comfortable and you can look forward to a very fun, relaxed wedding day where the importance lies in beautiful moments with your partner and family, and your photos will reflect just that.

Your Photographer: Malvin H. Gordon

Known for his unique style and honest way of seeing creatively, he combines sound technical knowledge and varied experience to create images that tell stories. Describing his style as lifestyle photography with a touch of modern photojournalism, offering an artistic, documentary style of shooting, Malvin believes in letting life unfold in front of the camera and doing whatever is necessary to keep up with the moment.

Malvin has been shooting weddings for over a decade as the main shooter. His clients love his unique style, that they describe as creative, unique and innovative. He creates memories, his images portrays raw, unscripted emotion that portrays the wedding day as it happens with all the in-between moments and memories that truly tell a story. As a natural light photographer, he always takes advantage of the sunlight, as much as possible, making his images rich and natural. He loves to smile, and making clients laugh and enjoy taking awesome photos showing how much they enjoy each other.

GET TO KNOW ME...

Hello!

I'm the photographer, Malvin.

I've been know to...

climb trees, lay on ground,

stand on tables & chairs,

endure rain, winds, traffic and

scorching heat,

scale walls, get covered in sand,

stand in the ocean.

Split pants, bust holes in my shoes,

come home scraped, bruised, and

utterly exhausted.

ANYTHING for the shot!

Random facts about ME...

My family calls me Jimmy.

*I'm a planner, but can improvise
on the fly.... a doer, and a thinker.*

I love fried chicken, with lemon flavor

I'm a minimalist, simple is elegant.

I was born in the Bahamas,

graduated when I was sixteen,

*and obtained a degree Information
Technology(before pursuing photography).*

Water is my favorite drink.

Don't like pickles, but love large green apples.

A dog lover, (that's my "rohzy" in the photo)

*I'm also a counselor, who love charity and
community service work.*

*I believe that the best photographers
are not always the most talented
but the hardest working.*
